

## What I do at Workshops

*I will usually demonstrate 3 or 4 different projects using Stampin'Up! Products and then we all get to have a play!!! We will either create a card or project using a variety of stamp sets etc. If there is something in particular you as a host would like demonstrated or would like all your guests to make then just let me know.*

*These workshops are so much fun and I will guarantee everyone will go away loving Stampin'Up! products and also having a sense of pride in what they have created!*

*So if you would like to get a few friends together and have a fun and creative workshop just let me know!*

## Catalogue Parties

*Alternatively you can have a catalogue party where you collect the orders from friends and family by showing them the catalogue and you will receive the hostess benefits.*
